Daily symptoms screening		
Moving between classrooms limited to educators & special circumstances		
Eliminated classroom transitions for students		
Student meals served by one educator who wears mask & gloves		
Cohort classes a max. of 30 persons		

**Early Learning
Preschool &
Daycare**

At Kids U, the safety of our students isn't the NEW norm.

It has always been one of our core values!

Here are some of the ways we've implemented new measures, and have gone above and beyond Alberta Health and Government of Alberta standards:

Before Covid, Kids U provided individual bins for students' personal belongings. Since Covid, we have made the daily bleaching of bins mandatory, in order to maintain a clean and sterilized environment. Additionally, we now no longer send the bins home with children every night, to help reduce cross-contamination.

Since Covid, non-essential visitors are no longer permitted to enter our campuses. We now offer video tours for all of our locations, easily available online. Meet and greets with our campus staff are done virtually through Zoom.

We require all visitors and staff to fill out an extensive digital health questionnaire as a part of our daily health screening. This includes a routine temperature check. In order to minimize points of contact even more, Kids U provides a digital QR code for visitors to scan, so they can complete and submit the questionnaire from their own mobile devices.

Kids U is renowned for our unique curriculum, which includes three different learning environments that children transition through multiple times a day. Since Covid, we have eliminated these classroom transitions in order to minimize cross-contamination. However, we continue to provide our Left Brain, Right Brain and Movement curricula to our students, within the safety of their assigned classrooms.

Daycares are exempt from the City of Calgary bylaw of mandatory face coverings in indoor public spaces. However, Kids U implements a mandatory mask rule for any visitors who are temporarily entering our campuses. This includes parents doing drop-offs and pick-ups. We are also proud to provide free reusable masks to our families, for their own personal use outside of Kids U.

If you would like more information on Kids U safety measures and how we are staying safe during these times, please give us a call at
